Objective

Adequate software development, machine learning, and Web development B.Tech CSE Student seeking software development or machine learning Internship.

Skills | Relevant Experience

Software Development

▹ Language / Tools: C++, Python, Bazel
▹ **Name: Netzwerx [Ongoing]** ◯
 ▹ Description: Python library for basic network and ethical hacking tasks.

Machine Learning

▹ Language / Tools: Python, Tensorflow, Keras, pandas, NumPy, StreamLit, plotly.
▹ **Name: REM YOLO** ◯
 ▹ Description: `Animeter` *Software Automation*. An automated REM (Random Encounter Model) tool for animal abundance estimation using ML.
▹ **Name: y = x + 10** ◯

Web Development

▹ Language/ Tools: Typescript, tsx, TailwindCss, Next.js, DaisyUI, FastApi
▹ **Name: Base-X** 🌐 ◯
 ▹ Description: It is a way to convert the text into nitrogenous bases. First, the text is converted into binary and then the binary is converted into nitrogenous bases.
▹ **Name: DiabetesX** ◯
 ▹ Description: Diabetes status check django rest ML API.
▹ **Name: REM Website** ◯
 ▹ Description: Dockerized Graphql API for REM Model.

Database

▹ Language / Tools: Python (pymongo), MongoDB
▹ **Name: y = x + 10** ◯
 ▹ Description: Used to store the data of `Download Model`

Programming Languages

Python, C++, Typescript, HTML, CSS, markdown

Tools

Git, GitHub, Tensorflow, Docker, Figma, Graphql, bazel (learning)

Education

UPES

📅 Expected, 2025

📍 Dehradun, IN

B.Tech in Computer Science & Engineering, Specialization in Artificial Intelligence

Sri Vidyaniketan PU College

📅 Graduated, 2020

📍 Gangawati, IN

Pre-University, KSSEEB, Science

Languages

▹ **English**
  Full professional proficiency
▹ **Hindi**
  Professional working proficiency
▹ **Kannada**
  Native or bilingual proficiency

Interests

Reading Novels, researching, playing fps games
